

TS35

TEMSA

SETTING THE STANDARD.

THE FUTURE OF TRANSPORTATION IS IN OUR HANDS

With more than 50 years of experience, we constantly seek to go above and beyond existing offerings and deliver an innovative understanding in the way we do transportation.

Today, at our 137-acre plant, we produce 4,000 buses and motor coaches and 6,000 light-duty trucks - a total of 10,000 vehicles per year - on a single-shift basis. In 66 countries around the globe, our products continue to stand out from the crowd as representatives of the transformation we initiated.

**WE DERIVE OUR
STRENGTH FROM
TECHNOLOGY**

SETTING THE STANDARD

The TS35 is ready to partner with you to achieve your long-term business goals.

The TS35 has proven its success by creating a new segment in its class. With its lower TCO, enduring design, and safety features, the TS35 is waiting for you to support your business.

DISCOVER THE DIFFERENCE

One of the TS35's powerful features is that it is a lucrative investment in your business. Standing out with its enduring character, the TS35 never lets you down with its stainless-steel chassis designed and produced with your needs and standards in mind. Its high maneuverability capability means that it not only copes with

difficult road conditions but also offers you a great sense of comfort. It adds an air of excellence to your journey thanks to its comfortable interior design, high performance, lower fuel consumption, and quiet operation. The engineering that went into the TS35 offers a user-friendly design.

Thanks to the ease of replacing parts, you'll enjoy savings in time and costs.

ENJOY THE ADVANTAGES OF TRAVELING WITH THE TS35

Aesthetic chrome lines combine with its muscular and powerful frame. In addition to its striking design, many of its internal features are designed to lower the TCO and offer convenience in terms of serving. Thanks to its front and rear 3-part mask, you can enjoy

easy access to the items you need and perform numerous service-related tasks. The TS35 comes in many colors to meet your needs.

Double-glazed side windows provide air conditioning, safety, and noise isolation

Segmented front bumper offers convenience while servicing

Modern and aesthetic LED headlights

MORE THAN A COCKPIT

Wherever you go, go there in comfort. The cockpit area of the TS35 is designed to offer maximum comfort to the driver during long trips. Simply enjoy the cutting-edge technology in the form of an adjustable, ergonomic driver's seat, lumbar support to

reduce pressure on your back, right/left armrests, a sun shield that operates with a single button, and a weight-sensitive pneumatic suspension system. Driving a TS35 is even safer. Think about your safety on the road with the state-of-the-art driving technologies:

LED Daytime Running Lights (DRL), fog lights, LED headlights and low voltage warning.

Ergonomic cockpit

Multimedia system, A/C remote controller, and light switch

Hydraulic steering and dashboard

Electrical sun visor

DESIGNED FOR COMFORTABLE JOURNEYS.

The first thing you need on a long-distance drive, we believe, is comfort. Passengers traveling on the TS35 simply enjoy their experience. The TS35 offers comfort and a very

good traveling experience thanks to its many features, including a spacious interior, aesthetic and ergonomic seats, custom multisets, and a

powerful air conditioning system. All you need to do is to choose the space between seats and the layout, pattern, and color of the floor.

ALWAYS HIGH PERFORMANCE

The TS35 will always offer you the highest performance to benefit your business with its lower fuel consumption.

Above all, it is a silent operator. The Cummins engine stands out with an environment-conscious

performance and low fuel consumption. The 8.9 liter engine offers 1,150 ft-lbs of torque @1,400 rpm, generating 350 hp of power, and gives a truly powerful driving experience.

SAFETY SYSTEMS TO MAKE YOU FEEL SECURE

In our opinion, the first requirement of a comfortable trip is safety. Thanks to its safety systems, the TS35 is an efficient assistant during your journeys.

Anti-Lock Braking System (ABS) allows the driver to hit the brakes suddenly without losing control. It

prevents the brakes from locking up and reduces the stopping distance. In doing so, it improves handling and enables a safer driving experience, even when sudden braking is needed.

Anti Slip Regulation (ASR) prevents the wheels from losing traction. The ASR system helps the driver to

prevent skidding and thus allows the vehicle to start moving, even under difficult road conditions. It also enhances driving safety on slippery surfaces and prevents excessive tire wear.

Electronic Stability System (ESP) helps protect against the adverse effects of rough road conditions. It works with the engine's operating system and provides different levels of traction to each individual wheel. This allows adjustments to the amount of traction on individual wheels and, combined with the different braking power for different wheels, provides the optimal level of traction for all 4 wheels. These adjustments help prevent the driver from losing control of the vehicle if the steering wheel is abruptly turned hard to execute sharp cornering.

THE TS35 OFFERS YOU A RANGE OF OPTIONS

As a good business partner,
the TS35 offers you a range of
seating capacity options.

35 ft

Seating capacity

40 + 1 with restroom 

35 ft

Seating capacity

36 + 1 with wheel-chair lift and restroom options 

TECHNICAL SPECIFICATIONS

DIMENSIONS AND WEIGHTS

Length (ft)	35
Width (in).....	100
Height (in).....	138.6
Floor-to-Ceiling Height (in)	75
Wheelbase (in)	218.1
Front Overhang (in)	82.12
Rear Overhang (in)	123
Turning Diameter (ft).....	31.4
Approach Angle.....	8°
Gross Vehicle Weight	37,448 lbs (16,986 kg)
Total Luggage Volume (ft³)	215

ENGINE

Model	Cummins L9 350 hp – EPA 2017
Type	Diesel
Number of Cylinders and Layout	6 in Line
Bore/Stroke	114 mm / 145 mm
Volume (displacement)	8.9 L
Maximum Power	350 HP
Maximum Torque	1,150 lb-ft @ 1,400 rpm

TRANSMISSION

Model	Allison B500 (Retarder option)
Type	Automatic
Number of Gears.....	6

AXLES

Front Axle Type	ZF RL 75 E - independent
Front Axle Capacity	16,535 lbs
Rear Axle Type	ZF A132
Rear Axle Capacity	27,120 lbs
Differential Ratio	4.27

RIMS & TIRES

Rim	22.5 x 9 Alcoa Durabright
Tire	315 / 80 R 22.5

FUEL & DEF TANK

Fuel Capacity	154 US Gal
DEF Tank Capacity	10 US Gal

ELECTRICAL SYSTEM

System Voltage.....	24 V
Battery.....	2 x 12 V 225 Ah

Handicapped Lift/Ramp Preparation	Optional

TOGETHER

TEMSA continues to partner
with you anytime and anywhere...

**FOR THE
ROAD AHEAD**

READY TO ADDRESS YOUR SERVICE NEEDS

You won't have to waste time that should be dedicated to work, as your vehicle is designed to offer maximum performance to generate valuable income.

Make your appointment before visiting the service center and save even more valuable time.

ALWAYS BRAND NEW, WITH WARRANTY COVERAGE AND REGULAR MAINTENANCE

Let us take care of your vehicle with the help of our advanced technology and highly qualified service technicians while you enjoy the vehicle's performance and warranty coverage.

SHORTER DELIVERY TIMES FOR SPARE PARTS

Same-day shipping and strategic locations guarantee shorter delivery times. With our strategically located facilities and our guarantee that all orders placed before 3 PM Eastern ship on the same day, we are able to ensure the quick delivery of the parts that keep your business running.

QUALITY IS OUR PRIORITY

A commitment to OE quality ensures the best products for all your needs.

Supplying OE parts and optional high-quality aftermarket products provides peace of mind for our operators.

TECHNICAL ASSISTANCE IS JUST A PHONE CALL AWAY

With TEMSA's Emergency 24/7 technical support phone line, we are here for you anytime.

Our professional team is accessible 24/7 to deliver quick and efficient solutions.
